

2'-O-Methylguanosine(Gm) Rabbit Mab For Db And Elisa | Species-Independent Modified Nucleoside Antibody

Item Number: CM0000035

Introduction

Rabbit monoclonal antibody specific to 2'-O-Methylguanosine (Gm), a modified nucleoside. Species-independent reactivity, validated for dot blot (DB) and ELISA. Ideal for epitranscriptomics and RNA modification detection assays.

Parameter	Value
Product Name	2'-O-Methylguanosine(Gm) Rabbit mAb
Remarks/Alias	2'-O-Methylguanosine; Gm; 2'-O-Methylguanosine(Gm)
Species	Species independent
Gene ID	CAS: 2140-71-8
Immunogen	Chemical compounds (Gm)
Source	Rabbit
Category	Other Modified Antibodies
Application	DB, ELISA
Cross Reactivity	Species independent
Shipping	Ice bag
