

5-Methylcytosine (5Mc) Rabbit Monoclonal Antibody For Db And Elisa - Species-Independent Cross-Reactivity

Item Number: CM0000001

Introduction

This 5-Methylcytosine (5mC) rabbit monoclonal antibody is suitable for dot blot and ELISA applications with species-independent cross-reactivity. Ideal for epigenetic research and diagnostic assay development.

Parameter	Value
Product Name	5-Methylcytosine (5mC) Rabbit mAb
Remarks/Alias	5mC; 5-Methylcytosine (5mC)
Immunogen	Chemical compounds 5mC
Source	Rabbit
Category	Other Modified Antibodies
Application	DB, ELISA
Cross Reactivity	Species independent
Shipping	Ice bag
