

Actin(Plant Specific) Rabbit Monoclonal Antibody - Actin(Plant Specific)

Item Number: CM0007291

Introduction

Actin(Plant Specific) Rabbit mAb is a monoclonal antibody derived from rabbit, validated for Western blot (WB) and ELISA. It specifically detects plant actin across widely range species including Arabidopsis thaliana and Oryza sativa, with a predicted protein weight of 45kDa. Suitable for plant biology research.

Parameter	Value
Product Name	Actin(Plant Specific) Rabbit mAb
Remarks/Alias	ACT12; Actin(Plant Specific)
Species	Arabidopsis thaliana
Immunogen	Synthetic peptide; A synthetic peptide corresponding to a sequence within amino acids 1-100 of Actin(Plant Specific)(NP_190236.1).
Source	Rabbit
Category	Monoclonal Antibodies
Application	WB, ELISA
Cross Reactivity	Widely Range, Oryza sativa, Arabidopsis thaliana
Protein Weight	45kDa
Shipping	Ice bag
