

Anti-Axl Monoclonal Antibody For Wb, Fc, Elisa - P30530

Item Number: CM0004597

Introduction

Recombinant rabbit monoclonal antibody against human Axl (UniProt P30530). Validated for WB, FC, ELISA. Detects 98kDa tyrosine kinase receptor involved in cancer progression and viral entry. Suitable for oncology and immunology research.

Parameter	Value
Product Name	Axl Rabbit mAb
Remarks/Alias	ARK; UFO; JTK11; Tyro7; Axl
Species	Human
Gene ID (Human)	558
Gene ID	558
Immunogen	Recombinant fusion protein containing a sequence corresponding to amino acids 33-449 of human Axl (NP_068713.2).
Source	Rabbit
Category	Monoclonal Antibodies
Application	WB, FC, ELISA
Cross Reactivity	Human
SWISS	P30530
Protein Weight	98kDa
Shipping	Ice bag
