

## Anti-Gtf3A Polyclonal Antibody For Wb, Elisa - Q92664

Item Number: CM0028898

### Introduction

High-quality rabbit polyclonal antibody against human GTF3A (Transcription factor IIIA), validated for Western blot and ELISA. Essential for studies on 5S rRNA gene transcription and ribosome biogenesis.

| Parameter        | Value                                                                                                  |
|------------------|--------------------------------------------------------------------------------------------------------|
| Product Name     | GTF3A Rabbit pAb                                                                                       |
| Remarks/Alias    | AP2; TFIIIA; GTF3A                                                                                     |
| Species          | Human                                                                                                  |
| GeneID           | 2971                                                                                                   |
| Immunogen        | A synthetic peptide corresponding to a sequence within amino acids 1-100 of human GTF3A (NP_002088.2). |
| Source           | Rabbit                                                                                                 |
| Category         | Polyclonal Antibodies                                                                                  |
| Application      | WB, ELISA                                                                                              |
| Cross Reactivity | Human                                                                                                  |
| SWISS            | Q92664                                                                                                 |
| Protein Weight   | 42kDa                                                                                                  |
| Shipping         | Ice bag                                                                                                |
