

## Anti-Kpna2 Polyclonal Antibody For Wb/Ip/Elisa - P52292

Item Number: CM0022625

### Introduction

Rabbit polyclonal antibody against human KPNA2/importin subunit alpha-1, validated for WB, IP, ELISA. Cross-reacts with human and mouse. Key adapter for nuclear protein import via NLS recognition and KPNB1 docking.

| Parameter        | Value                                                                                                             |
|------------------|-------------------------------------------------------------------------------------------------------------------|
| Product Name     | KPNA2 Rabbit pAb                                                                                                  |
| Remarks/Alias    | QIP2; RCH1; IPOA1; PTAC58; SRP1alpha; SRP1-alpha; KPNA2                                                           |
| Species          | Human                                                                                                             |
| Gene ID (Human)  | 3838                                                                                                              |
| Gene ID          | 3838                                                                                                              |
| Immunogen        | Recombinant fusion protein containing a sequence corresponding to amino acids 1-290 of human KPNA2 (NP_002257.1). |
| Source           | Rabbit                                                                                                            |
| Category         | Polyclonal Antibodies                                                                                             |
| Application      | WB, IP, ELISA                                                                                                     |
| Cross Reactivity | Human, Mouse                                                                                                      |
