

Anti-Methylmalonyl-CoA Mutase Rabbit Monoclonal Antibody For Wb - P22033

Item Number: CM0011470

Introduction

Recombinant rabbit monoclonal antibody against human Methylmalonyl-CoA mutase (MMUT/MUTA). Validated for WB, IHC-P, IF/ICC, and ELISA. Detects a single band at ~83 kDa. Suitable for metabolism and methylmalonic aciduria research.

Parameter	Value
Product Name	MUTA Rabbit mAb
Remarks/Alias	MCM; MUT; MUTA
Species	Human
GeneID (Human)	4594
GeneID	4594
Immunogen	Synthetic Peptide A synthetic peptide corresponding to a sequence within amino acids 500-600 of human MUTA (P22033).
Source	Rabbit
Category	Monoclonal Antibodies
Application	WB, IHC-P, IF/ICC, ELISA
Cross Reactivity	Human
SWISS	P22033
Protein Weight	83kDa
Shipping	Ice bag
