

## [Ko Validated] Anti-Rhogdi Rabbit Monoclonal Antibody For Wb And Elisa - P52565

Item Number: CM0003823

### Introduction

Rabbit monoclonal antibody against human RhoGDI (Rho GDP-dissociation inhibitor 1, ARHGDIA). Validated for Western blot and ELISA, cross-reacts with human, mouse, and rat. Suitable for studying Rho protein homeostasis and cell motility.

| Parameter        | Value                                                                                              |
|------------------|----------------------------------------------------------------------------------------------------|
| Product Name     | [KO Validated] RhoGDI Rabbit mAb                                                                   |
| Remarks/Alias    | GDIA1; NPHS8; RHOGDI; RHOGDI-1; HEL-S-47e; DI                                                      |
| Species          | Human                                                                                              |
| GeneID (Human)   | 396                                                                                                |
| GeneID           | 396                                                                                                |
| Immunogen        | A synthetic peptide corresponding to a sequence within amino acids 70-150 of human RhoGDI (P52565) |
| Source           | Rabbit                                                                                             |
| Category         | Monoclonal Antibodies                                                                              |
| Application      | WB, ELISA                                                                                          |
| Cross Reactivity | Human, Mouse, Rat                                                                                  |
| SWISS            | P52565                                                                                             |
| Protein Weight   | 23kDa                                                                                              |
